22<sup>nd</sup> April 2012

Welcome all to another Newsletter.

Time continues to race by. We have now been consulting in Nunyara for 2 ½ years!

We have celebrated another Christmas. This year there were no hirsute surprises waiting for me on the last day of consulting, but rather a cold beer in the hand of Cherie's Ron who I must say looks a lot like Fotina who paid me a visit last year! We all had a well earned all be it short break over the Christmas-New Year period.

It was great also to catch up at Ulebury wines for an end of year wind up. We met Alex's family and Raj's latest addition to the family.

Alex has been a great addition to the front desk team. In addition to manning the desk she has been helping out with the typing burden. I'm pleased to say that she now has a new mortgage in Lyndoch and as a result I hope one more reason to stay on with our team!

January brought cycling to South Australia. I tackled Ride for a Cure and BUPA challenge rides. I thank you all for your words of encouragement and generous donations to JDRF. Mark didn't don the Lycra this year I believe because he was too busy shifting house and landscaping his new garden. Next year he won't have any excuse. We are all looking forward to an invite for a tour of his new house....

In February I celebrated my 40<sup>th</sup>. The front desk girls surprised me by putting balloons in my room which I then had to explain to each of my patients that afternoon, hence an even later finish than usual! Raj

also celebrated his 40<sup>th</sup> but did a better job than me at keeping it under wraps. He still owes us a cake at Nunyara!

I have not been actively recruiting Physicians to do more sessions at Nunyara although I am sure the local docs and community would love the support of a Rheumatologist and more Neurology services so if you know of any.... I anticipate that session rent charges will increase at the beginning of June, our first rent increase, in line with the increasing cost of salaries and utilities. I hope in the next month to replace our noisy Inkjet printers with quieter more reliable laser printers.

We now have a web page thanks to the help of my more IT savvy mother, which I urge you to visit at [www.nunyarahouse.com.au](http://www.nunyarahouse.com.au). I am missing a few photos for our doctor's profiles and would love to add one of our 3 front desk girls together. We have some Clinician and Patient information sheets and useful links. I welcome suggestions or changes and would be happy to add more information if thought necessary.

Finally I end with the sad news that Sue and Daryl have been having a tough time of late. Just as Daryl was recovering from his Prostate surgery, his health has taken another turn. All of our thoughts are with Sue and Daryl during this tough time.

**Kind Regards,**

**Anthony Zimmermann**
